SUMMARY

- Creator of widely-used **NPM** packages with **20,000+** weekly users and maintainer of popular libraries like **Mantine**, **PrimeReact**, and **RSuite**, collectively impacting over **3.4+ million** developers each month.
- Highly passionate developer with a strong emphasis on **Security**, **Accessibility**, **Performance**, and **Testing**.

WORK EXPERIENCE

Sears India, Senior Software Developer

Mar. 2023 – Present

- Developed a high-performance **React-Table** library from scratch, supporting priority-based sorting, multi-column filtering, and more advanced features with full **Accessibility** and **90% Test Coverage**, **CI/CD pipelines** for automated deployment, and well-structured documentation with **Docusaurus**, now being utilized by multiple teams company-wide.
- Integrated **OpenAI's Streaming API** to enable real-time content delivery with markdown support, error handling, response regeneration, request abortion, and a feedback mechanism, ensuring a smooth, interactive, and reliable user experience.
- Led the development of a real-time inhouse chat platform using **Node** and **Socket.IO**, collaborating closely with the support and product teams to replace a third-party tool, resulting in **55%** faster issue resolution and saving **\$30,000+** annually.
- Revamped the wiki docs using **Next**, resulting in a blazing-fast, searchable documentation experience powered by **Static Site Generation (SSG)** and **Incremental builds**.
- Led the development of a dynamic, no-code offers management platform allowing vendors to create ad campaigns and schedule them using **Cron**-based automation, currently adopted by **3+** high-profile vendors.
- Collaborated with cross-functional teams to implement design best practices and drive performance optimization in critical applications, efforts recognized with an **Excellence Award**.

MiniOrange, Web Developer

July. 2022 – Nov. 2022

- Optimized the WordPress SSO plugin by reducing its bundle size from **1.5 MB to 270 KB**, leading to a **70%** increase in downloads.
- Improved **React** application performance by optimizing and refactoring code, resulting in quicker load times and a better UX.
- Assisted senior designers by crafting wireframes, interactive prototypes in **Figma**, speeding up handoffs and improving visual consistency across the app.

PROJECTS

GitHub-CLI

[Docs](#) | [NPM](#) | [GitHub](#)

- Built with **Node** and the **GitHub APIs** to enable seamless repository management, pull request handling, and issue tracking directly from the **terminal**.
- Designed an intuitive CLI structure with minimal setup, allowing developers to streamline workflows through commands like **repo-create**, **pr-merge**, and more, achieved over **5,000+** weekly downloads on NPM.

React-Fast-Hooks Library

[Docs](#) | [NPM](#) | [GitHub](#)

- Created and published a custom **React hooks library** to boost performance and simplify complex logic within React applications.
- Released on NPM, gaining interest from the React community, it reached **15,000+** weekly downloads on NPM.

OPEN-SOURCE CONTRIBUTIONS

- **Mantine** – Improved the Tooltip component by enhancing accessibility features, contributing to a better UX for over **2.3M** monthly developers.
- **PrimeReact** – Fixed re-rendering issues in the Sidebar component, optimizing performance and state handling, benefiting **737K+** developers each month.
- **RSuite** – Introduced a paused prop in the Loader component, enabling fine-grained control over animations, now used by **423K+** monthly users. [See More on Github](#)

SKILLS

JavaScript, TypeScript, HTML5, CSS3, SCSS, TailwindCSS, Bootstrap, Styled Components, jQuery, React, Next, Redux, Zustand, Jest, React Testing Library, Framer-motion, Responsive Web Pages, Docusaurus, Rollup, Webpack, Node, Express, MongoDB, Mongoose, MySQL, Redis, WebSockets, RESTful APIs, JWT, Helmet, SuperTest, Git, GitHub, NPM, VSCode, Chrome Dev Tools, Lighthouse, Un-Lighthouse, Postman, Figma, Netlify, Vercel, Snyk

EDUCATION

P.E.S. Modern College of Engineering, Pune
Bachelor of Computer Engineering

2018-2022
9.05 CGPA
